

# Types of Resources

Name and Number: 02 S2 L1

Two things that we now know is that economics is the study of how people use resources to produce goods and services and that natural resources are one type of resource used by people. Now we are going to learn about two other resources: human resources and capital resources.

**Human resources** are the workers who make the goods or complete the services. They provide the labor and the skills that get the job done. For each of the locations listed below, can you complete the list of jobs found there?

## Grocery Store

manager  
cashier  
stocker  
deli  
bakery  
            
          

## Restaurant

cook  
server  
dish washer  
hostess  
bus boy  
            
          

## School

teacher  
principal  
custodian  
bus driver  
cook  
secretary  
            
          

**Capital Resources** are the goods and tools used to produce something new or to complete a job. Look around your classroom. Besides the actual room, what other items are needed for your teacher to do his/her job and for you to learn?

Lights  
pencils  
Crayons  
            
          

desk  
chair  
window  
            
          

projector  
computer  
electrical plug

Cut out the pictures on this page and glue them onto the next page to show the different types of resources.
