

# Create a Map

Your task is to create a map that includes items that you learned about from the examples and videos that you looked at for the last couple days. Your map should be the size of four pieces of paper taped together. Neatness counts, you may want to sketch out your map before your final version. Don't forget to use color in your map to make it look appealing.

Your map could be of a....

- neighborhood
- shopping mall
- castle
- theme park
- downtown
- campground
- other – just ask

Your map should include items like...

- streets (4)
- buildings (6)
- a key that includes at least four symbols
- compass rose
- a body of water
- Three more items of your choice
